So, with the ordination of His Grace Niphon of Babylonos, Hegumen of the historical Patriarchal Monastery of St George in Cairo, the activities of the Holy Synod of the Patriarchate

for 2009 were completed to the Glory of God.

For the first time His Beatitude established the institution of Proposals by the Synodal Hierarchs and so the Holy Synod had the opportunity to deal with vital and burning pastoral and missionary issues throughout Africa.

The ordination of Deaconesses was unanimously rejected as it is not deemed necessary and essential for this to be instituted in the praxis of the Orthodox Church on the African Continent.

All the Synodal Hierarchs have already departed for their provinces have received guidance and orders from His Beatitude for the continuation of their multifaceted and arduous humanistic and ecclesiastical work, filled with spiritual strength and instruction from their participation in the work of the Holy Synod.
